

The **TRACKS** *plus*TM switch is **ON!**

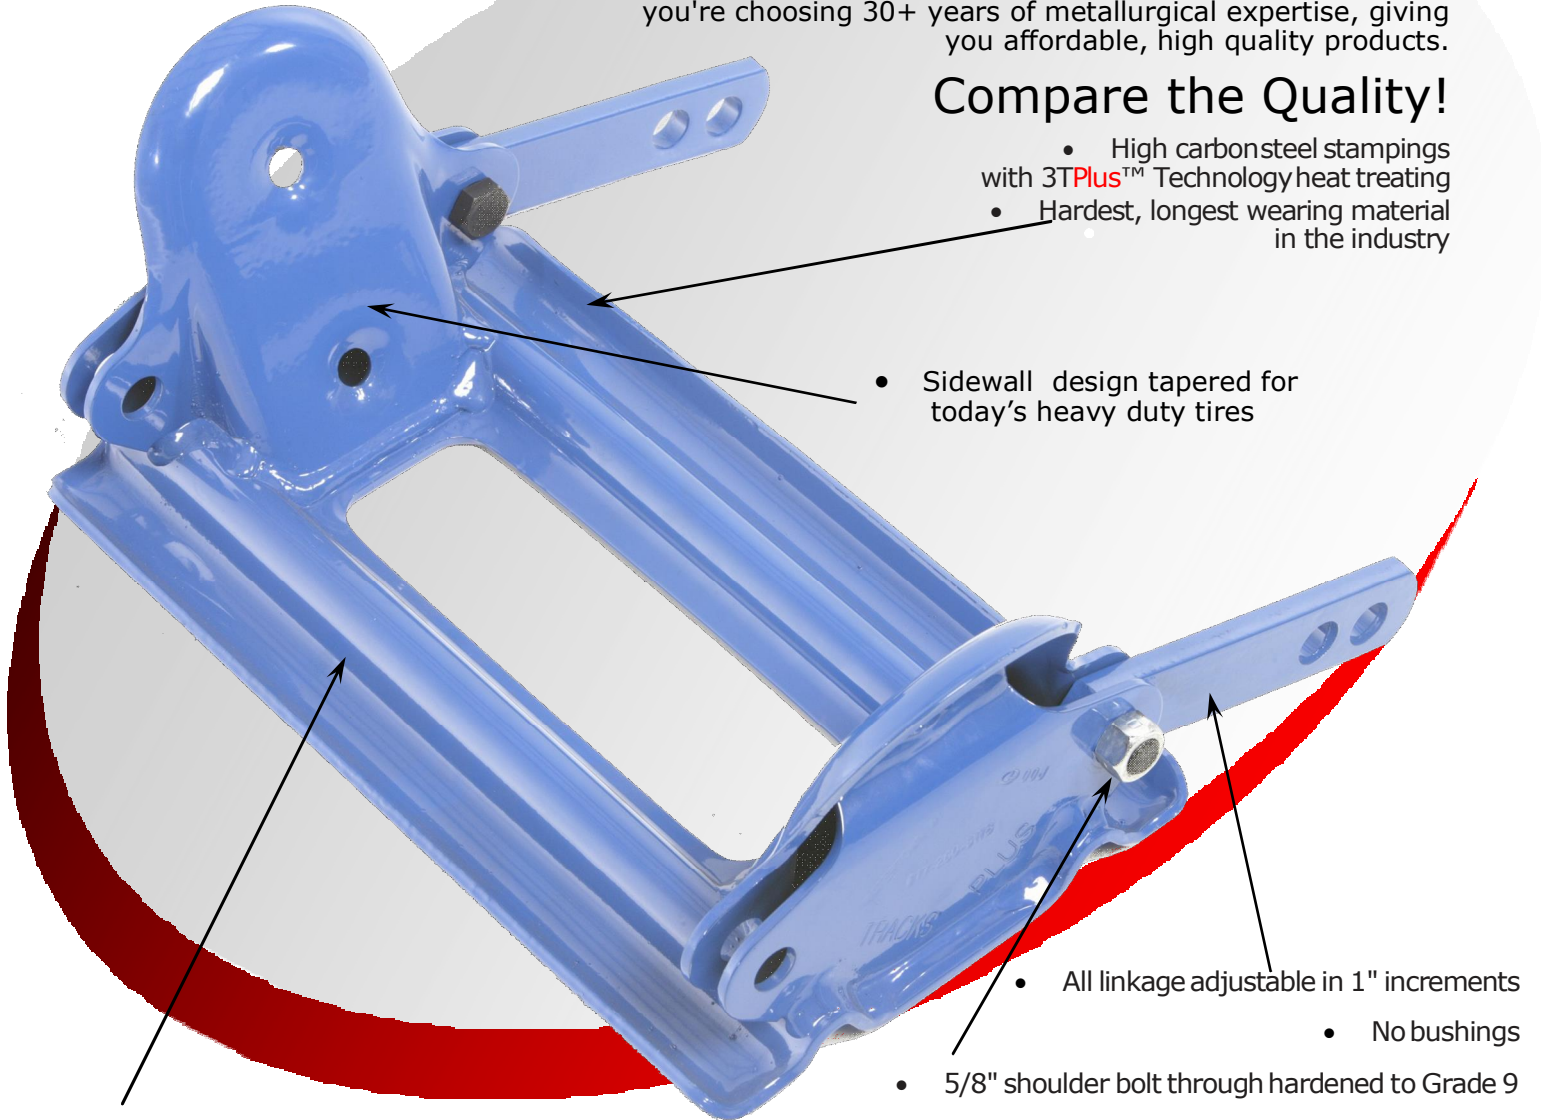

**American Made,
American Steel,
American Quality!**

FIRST Engineered Track!

ComponentsPlusTM gives you the BEST engineered skid steer track on the market. When you choose ComponentsPlusTM, you're choosing 30+ years of metallurgical expertise, giving you affordable, high quality products.

Compare the Quality!

- High carbon steel stampings with 3TPlusTM Technology heat treating
- Hardest, longest wearing material in the industry

- Sidewall design tapered for today's heavy duty tires

- All linkage adjustable in 1" increments
- No bushings

- 5/8" shoulder bolt through hardened to Grade 9

- 2-3/4" wide rails gives you a wider footprint for better floatation and traction
- Reduces ground pressure by as much as 50%
- Better linkage pivot point for improved track-to-tire grip
- Self-cleaning
- On and off in 15 minutes
